

Gender Pay Gap Report 2018

Under new legislation that came into force in April 2017, UK employers with more than 250 employees are required to publish data annually to show the difference between the average earnings of male and female employees.

Method

Using the hourly rates for all full-pay relevant employees on the snapshot date of 5th April 2018, we calculated:

1. Mean gender pay gap
2. Median gender pay gap
3. Mean bonus pay gap
4. Median bonus pay gap
5. Bonus pay proportion for males & females
6. Quartiles

Results

Calculation	Description	Result
1. Mean gender pay gap	Difference between the average hourly pay of male and female employees, expressed as a percentage of average male hourly pay	-8.00%
2. Median gender pay gap	As above, but median	0%
3. Mean bonus pay gap	Difference between the average bonus paid to male and female employees, expressed as a percentage of the average bonus paid to males	0%
4. Median bonus pay gap	As above, but median	0%
5. Proportion of males receiving a bonus	Male employees who received a bonus in the 12 months prior to 5 th April 2018, expressed as a percentage of total male employees	0%
5. Proportion of females receiving a bonus	As above, but for female employees	0%

6. Proportion of males and females in each quartile

Quartile	Males (%)	Females (%)
Upper	13%	87%
Upper Middle	7%	93%
Lower Middle	5%	95%
Lower	14%	86%

Quartiles

Employees were sorted by hourly rate of pay, highest to lowest, and organised into four evenly sized quartiles – Upper, Upper Middle, Lower Middle and Lower. The proportion of males and females in each quartile was then calculated.

Understanding the data

- On the snapshot date of 5th April 2018, Aden House Limited employed 269 members of staff
- 90% of these employees were female, reflecting the trend across the care sector as a whole
- No bonuses were paid during the year to 5th April 2018
- The 20 highest paid employees were female
- 17% of males employed by Aden House Limited on the snapshot date were Maintenance Staff

Statement

Aden House Limited pays all employees based on their job role and does not increase or reduce pay based on gender.

The results show that the average hourly rate of pay for females is higher than for males across Aden House Limited. This bucks the national trend (*Office for National Statistics*) and is indicative of the high proportion of females employed in the care sector.

The figures in this report have been calculated using guidance from the Government Equalities Office and Acas, in accordance with Gender Pay Gap Reporting legislation and are accurate to the best of our knowledge.
